# Print-on-Demand (POD) Card Carriers

Elevate your cardholder experience with a design that drives activation and card usage

Transform your card carrier into a powerful marketing tool. Each customer touchpoint can help drive revenue, build loyalty and increase satisfaction.

Partner with a single-source provider that values relationships as much as you do. Print-on-demand card carriers from Fiserv are designed to drive the highest level of engagement, card activation and usage.

## Streamline Card Carrier Creation

Creating an engaging experience for your cardholders should be a smooth and simple process. Your customers deserve creative, engaging and personalized materials – without sacrificing efficiency or depleting your budget.

The process of designing, writing and finalizing marketing materials on your own can be troublesome and time consuming. Using a templated approach for your card carrier saves time and money. Ease your workload and increase your efficiency by using a predesigned template that allows for customization.

#### Follow these simple steps:

- 1. Choose your production-ready template
- 2. Provide your branding information
- 3. Customize your message, terms and conditions
- 4. Review and approve your card carrier proof
- 5. Focus on what matters most growing your business!

# **Promote Brand Consistency**

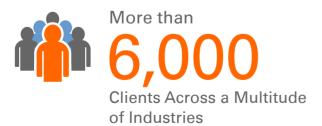

Our predesigned card carriers feature a clean, modern design and are well-suited for brand customization. With Fiserv, you have the flexibility to adjust logos, brand colors, offers and card names. Staying consistent with your branding increases brand awareness, recall and gives the cardholder the best experience possible. Whether you're trying to motivate activation or drive card usage, a print-on-demand card carrier template can help you deliver the right communication.

## Consider these statistics:

Over
300
Million
Cards Personalized
Annually

9 Billion Images Printed Annually

# Designed to Be Production-Ready

Fiserv completes the entire process – from printing and affixing to folding and mailing. We deliver clear, quality, high-speed digital printing with several options for folds and perforation. Using a preapproved template guarantees that the document is production-friendly and ready for assembly.

Our templates take the guesswork out of card carrier design. We have pinpointed the best position to affix the cards with a clear, non-residue adhesive. Printed simplex or duplex, a compelling card carrier allows you to optimize each communication touchpoint. Under each card, the customer sees relevant messages and a clear call to action. With our templates, you have the option to either create your own message or use prewritten content.

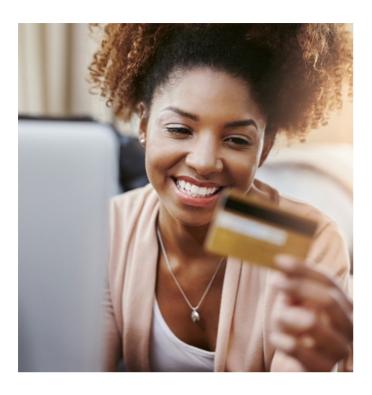

Because the templated approach is predetermined and efficient, you can achieve a high level of personalization without generating a high cost-per-carrier. Printing disclosure information on the reverse side of the carrier, rather than on an insert, reduces costs even further.

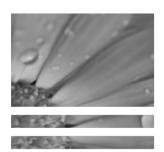

# **Enhance Cardholder Engagement**

Intentional design can transform card carriers from plain, lackluster documents into powerful marketing tools. With on-demand color printing and more carrier space, you can incorporate highly personalized messages that make your cardholders feel more connected.

Fiserv can help you create the experience that helps drive customer engagement and retention, reduces costs, increases revenue and improves efficiency within your business.

# Make Your Carrier Stand Out With Color

# The Card Carrier Difference

- On-demand color printing: Print text, logos, promotional offers, co-branding information and other graphic elements on both sides of the carrier
- → True cost savings and operational efficiency: High-quality, on-demand printing reduces the need for large inventories of preprinted forms. In fact, you can go from blank white stock to finished carriers and eliminate preprinted form inventories altogether
- → Multiple format options: 8 ½" x 11," 8 ½" x 14," and 11" x 17" sized paper, z-fold or c-fold, on 24# paper stock
- Greater prominence for important marketing messages and cross-sell opportunities
- Reduced card issuance costs: A seamless, one-stop shop for the entire process creates greater cost efficiencies for your organization
- Reduced need for inserts: With one and two-sided printing capabilities, you have more real estate for your marketing messages
- → Increased revenue and response rates: By reducing your cost per card and throughput, profits are increased. And, card carriers with relevant messages help increase customer engagement
- → Reduced risk and cost of obsolete inventory: On-demand printing means that you never have wasted or obsolete inventory sitting on your shelves

## **Connect With Your Cardholders**

Ensure that your customers are engaged every step of the way. The card carrier featured here is a full color, 8.5" x 11" Welcome Package. Fiserv templates offer an intentional design, with the flexibility to adjust logos, brand colors, card names and messaging.

- Incorporate your unique logos, colors, offers and card names to stay consistent with your brand.
- Welcome your cardholders and motivate a prompt card activation.
- Place one or two cards prominently on the front page, with additional activation information printed under each card.
- Display product information such as benefits, perks and services that are unique to this specific card.
- Enhance the cardholder experience with relevant messages and content catered to your customers.
- Build lasting relationships with your cardholders by cross-selling and up-selling relevant products.

Every touchpoint with your customers is an opportunity to promote brand consistency and deepen the cardholder relationship. Our featured designs transform card carriers into powerful marketing tools.

# More Than a Card Carrier

This tangible touchpoint is an opportunity to welcome your new cardholder and drive card activation. Activation is a critical first step in what can become a rewarding, long-term relationship with your cardholder. Partner with a single-source provider that values relationships as much as vou do.

Move forward with Fiserv today.
